

October 4th 2023 Meeting Notes

Secretaries Report

- Secretary's report read and approved from the September Meeting

Treasurers Report

- Income - \$880.00 + \$100.00 for deposits from the 3D event and sales of the donated equipment to the club
- Expenses - \$676.46 to Ballstadt's for mowing services

Old Business

- Field Project Updates - East end of the cross wind runway was removed with new dirt and grass seed planted to take the place of the old runway material.

New Business

- Event Calendar
 - November - April Meeting to be held at HyVee on our regular meeting nights.
- FRIA status = Club is approved but the FAA has delayed the implementation 6 months.
- We will look into getting a drone night at the field next season to see if there is any interest.
- Neil is going to rework the front gate signage, will work on it over the winter months and install in the spring.
- The donated RC equipment in the shed is available for anyone to take what you want. Anything remaining will be tossed next month.
- The field went dormant in September but then the rain and heat came in and the field took off again. We will request Ballstadt's to mow an additional time.
- The field shutdown will take place at the end of October. Really only need to service the mower and dump the water tanks plus clean the sheds so there is room for the Frozen Finger Fly in the large shed for shelter.
- Dick purchased a CD for the club to make better interest on our money to keep the club more fluid in the treasury, The money is still available to the club if needed but will effect the total money made from the CD term.
- Dick presented a clarification on the ownership of the field. ORCM are the owners as long as we remain a club. If the club disbands then the field is sold back to the Reul family for \$1.00. Same price that we purchased the field for. This was a great gift for the club so we want to make sure we stay in the green and functioning as a complete club.
