  - Dick purchased material for the taxiways. It is not the same as the runway. We are spraying the heli pad area before installing the replacement material. If this material does the job for 5 - 6 years we are money ahead in the long run.
  - Spray the shelter with waterproofing - Neil to do when weather warms and winds are low.
  - Still need to clean one leaf blower carburetor.
  - Siding will be repaired and the front sign completed by Neil.
  - Cut tabletops to size and screw down to keep the edges from lifting and curling.
  - The gate has been repaired and will get a fresh coat of paint this spring.
  - Need to burn the fire pit materials when weather permits.
  - A dump run will be planned this summer to haul out old materials and garbage from sheds and taxi ways.
- SMMAC is holding the Minnesota Jets event on June 14 - 15 and NAMFI on Aug 8 - 10
